

Antonios Stergiopoulos

Game Developer

antonis.stergiopoulos@outlook.com · LinkedIn · Portfolio

PROFILE

Game developer with 4+ years of professional game programming experience, an MSc in Computer Games Technology, and a BSc in Computer Science. Experienced across shipped commercial titles, gameplay systems, editor tooling, platform support, patches, and build pipelines, with a strong focus on Unity and C#. Additional experience includes Unreal Engine/C++ through professional work and DirectX/HLSL through academic projects. Full project breakdown available at astergio.com.

CORE SKILLS

Primary: Unity, C#, gameplay systems, editor tools, build pipelines, platform conversion

Additional: Unreal Engine, C++, DirectX 11, HLSL, Python

Workflow: version control, CI/build automation, release support, issue tracking, technical documentation

Professional: problem solving, technical ownership, organisation, teamwork, planning, communication

WORK EXPERIENCE

Game Developer | *Secret Level Studios / PQube, UK*

Jan 2024 – Present

- Develop gameplay systems, editor tools, build pipeline improvements, and production-ready features for commercial Unity projects
- Contributed to Kitaria Fables 2 and supported development work for Kitaria Fables
- Led day-to-day programming on When the Light Dies during project transition and final development stages
- Support patches, bug fixing, release preparation, and platform-specific work for Potion Permit and Knight vs Giant: The Broken Excalibur
- Platforms include Steam, PS5, PS4, Xbox Series X|S, and Xbox One

UNITY C# GIT EDITOR TOOLS BUILD PIPELINES UNITY BUILD AUTOMATION FMOD

Junior Programmer | *Team17 Digital, Wakefield, UK*

Mar 2022 – Nov 2023

- Worked on commercially shipped Unity/C# and Unreal Engine/C++ titles across platform conversions, feature implementation, maintenance, and release-focused development
- Implemented platform-specific features and conversion work, including Windows Store and storefront/platform requirements
- Worked with Unreal Engine and C++ on Hell Let Loose and Thymesia
- Supported bug fixing and long-term maintenance across Overcooked! 2, The Knight Witch, The Serpent Rogue, Hokko Life, Crown Trick, Hell Let Loose, and Thymesia
- Platforms included Windows Store, macOS, Linux, Steam, GOG, Epic Games Store, Nintendo Switch, Xbox Series X|S, Xbox One, PS5, PS4, Luna, and Alibaba

UNITY C# UNREAL ENGINE C++ PLATFORM CONVERSION PERFORCE TEAMCITY

Microsoft Student Partner / Microsoft Learn Student Ambassador | *Microsoft, Greece*

Jun 2014 – Sep 2021

- Supported university lectures and lab sessions, helping students with C#, Visual Studio, Unity, and UWP development
- Presented seminars and online sessions on Unity, C#, Windows app development, and Microsoft technologies
- Created tutorials and learning material for the StudentGuru Unipi community

C# UNITY VISUAL STUDIO UWP TEACHING

Web Developer | *NCSR Demokritos, Greece*

Nov 2016 – May 2017

- Developed and maintained a public-facing website for a European healthcare event using JavaScript, HTML, and CSS

JAVASCRIPT HTML CSS

Software Developer Intern | *NCSR Demokritos, Greece*

Apr 2016 – Jun 2016

- Supported development and maintenance of a research-focused healthcare web platform using AngularJS, C#, MySQL, and SOAP-based services

ANGULARJS C# MYSQL SOAPUI

SELECTED PROJECTS

Selected non-professional projects. A fuller archive of academic, personal, game jam, and experimental work is available on my portfolio.

Mixed Reality HoloLens 2 Thesis | *MSc Thesis, Abertay University*

2021

- Developed a Unity mixed reality experience using HoloLens 2 spatial mapping, hand tracking, eye-based input, surface interaction, and 3D positional audio

UNITY C# HOLOLENS 2 MIXED REALITY

AR Escape Room | *BSc Thesis, University of Piraeus*

2020

- Developed an augmented reality puzzle game using Unity and Vuforia, with marker-based room exploration, interactive inventory objects, and escape-room-inspired puzzles

UNITY C# VUFORIA AR

Golem Get Going | *MSc Group Project, Abertay University*

2021

- Roguelike platformer prototype where I handled programming and in-engine implementation, including gameplay systems, shaders, project structure, version control, and level building

UNITY C# GIT SHADERS

Lost In Dimension | *Online Together Jam*

2020

- Asymmetric two-player online puzzle game where I developed the top-down gameplay section, networking, and parts of the UI

UNITY C# PUN 2 MULTIPLAYER

EDUCATION

MSc, Computer Games Technology | *Abertay University, Dundee, Scotland*

Sep 2020 – Sep 2021

- Focused on gameplay programming, networked games, AI, procedural methods, applied mathematics, DirectX/C++ graphics projects, and mixed reality development

BSc, Digital Systems | *University of Piraeus, Greece*

Sep 2012 – Jul 2020

- Computer science-focused degree covering programming, data structures, algorithms, databases, artificial intelligence, software development, and Unity-based AR thesis work

ACHIEVEMENTS & VOLUNTEERING

AI Gaming Tournament for Student Partners | *1st Place, Microsoft*

Nov 2019

- Built the most efficient solution for matching cards quickly using Azure Computer Vision and automated image/text analysis

Hour of Code | *Code.org, Greece*

Dec 2014 & Dec 2015

- Introduced elementary school students to programming through Scratch and puzzle-based activities
